

Fuel Management Fit For Business

Fuel Management Fit For Business

Optimise efficiency. Ensure productivity. Never run out.

As the UK's largest provider of fuels and lubricants, we understand how important it is to have a reliable, steady supply to keep businesses moving and reduce the risk of unplanned downtime.

The FuelWise telemetry system from Certas Energy provides full transparency and visibility of all liquid stock (diesel, lubricants, waste oil and more) stored in stand-alone or multiple tank populations, meaning you can stop worrying about fuel levels and focus on what matters most, your business operation.

By providing in-depth supply data for businesses across a range of industries to access anywhere, anytime, you can be assured that your supply will be safe, secure and readily available.

Benefits for business

OPTIMISE STOCK MANAGEMENT

- Never run out of supply
- Access stock visibility
- Increase traceability
- Plan future stock purchase
- Get alerts for low levels, sudden drops and leaks
- Reduce unplanned down time

REDUCE RISK

- Prevent staff from working at height
- Eliminate overfilling and environmental risk
- Avoid workplace accidents

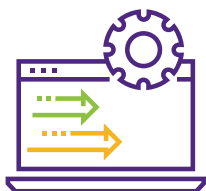

ENSURE COMPLIANCE

- Assist CRC/DECC calculations with consumption data
- Identify compliance/regulation issues with tanks

**QUICK AND
EASY TO
INSTALL**

Accessing and viewing your data

With the FuelWise telemetry system from Certas Energy, your business can monitor its liquid stock usage and levels via the Connect Sensor Portal and Mobile App, on any web enabled device. With daily or weekly reporting options and monthly or quarterly payment plans available, you can access and pay for your data when it suits your business.

MULTIPLE PLATFORMS

Whether you're on the go or in the office, the Certas Energy dashboard will keep you up to date with liquid levels across your tank population.

WEB DASHBOARD

The web dashboard provides all the level and usage data you need, presented in a clear format that's easy to navigate.

MOBILE APP

For people who need easy access to an overview of up to five tanks on the go.

Log in to your online dashboard and see all the data you need – statistics, statuses and measurements from every tank across your business.
